

AT THE FOREFRONT OF SURVIVAL TECHNOLOGY...

With over 90 years' experience in the maritime industry, RFD Beaufort remains the market leader in the design and manufacture of marine safety and survival equipment. As chosen supplier to some of the leading names in the commercial and leisure marine industry, our mission is to deliver the best value safety and survival solutions from concept through to certification.

Technical innovation is a cornerstone of our company ethos. Our dedicated Research and Development team works tirelessly to continuously improve each of our products, ensuring we are always ahead of the ever-changing demands of today's marine industry.

RFD Beaufort is one of a number of leading organisations in the Survitec Group, which has a history stretching back over 160 years. Commanding market-leading positions worldwide in marine, defence and aerospace survival technology, Survitec brings together best-in-class brands with reputations for quality design and innovation.

With an extensive servicing network of over 600 Survitec Group approved service stations supporting our products worldwide, we can ensure customers have access to a servicing facility anywhere across the globe.

RFD SEASAVA PRO-ISO

- ISO9650-1 approved liferaft
- New compact and lightweight container design
- Extended service period of 3 years
- Can be serviced by our network of over 600 Survitec Group fully approved stations

SAFETY FIRST

INTRODUCING THE RFD SEASAVA PRO-ISO LIFERAFT

It is estimated that over 50% of the passengers and crew rescued from the water each year are from pleasure boats and yachts in distress. Among the most common incidents are fires, collisions or rogue waves: so when an emergency arises, it is vital that your vessel is adequately equipped to ensure the safety of all on board.

It is for this reason RFD Beaufort has developed the Seasava Pro-ISO. Based upon our highly successful SOLAS approved Surviva range, the RFD Seasava Pro-ISO has been specifically developed to accommodate the needs of the leisure market. Manufactured to the same high specifications synonymous with all RFD products, our new sleek, compact container is ideal for vessels with limited deck space. Meeting the stringent ISO9650-1 standard for inflatable liferafts, Seasava Pro-ISO is one of the most robust and durable leisure liferafts available on the market today.

KEY BENEFITS

Reassurance

- Extended service period of 3 years, reducing your ongoing costs
- Manufactured from long-lasting, corrosion and abrasion resistant material

Dependable

- High volume water pockets to ensure maximum stability
- Simple to close canopy is manufactured to the highest SOLAS standards, providing added protection from the elements
- Semi-rigid boarding ramp allows for quick, easy and safe boarding
- Interior lifelines help occupants stabilise themselves during heavy seas
- Exterior pressure relief valves ensure excess CO₂ is not released into the liferaft
- Vacuum packed for prolonged durability
- Insulated floor for increased comfort
- Comes with the following emergency pack options: <24, >24 or SOLAS B pack

Visibility

- Orange, high visibility canopy with retro-reflective panels to help facilitate the search and rescue process
- Canopy fitted with internal and external light to ensure optimum visibility
- Orange buoyancies for increased visibility

Flexible

- Available in two packaging options: a weatherproof valise or a tough, lightweight container

Compact

- Revolutionary container design, developed in conjunction with an award-winning design house, is not only aesthetically pleasing but lightweight and compact taking up little deck space
- New design features include handles to ensure ease of manoeuvrability and a document holder to allow the inclusion of important certificates
